EASTER

Easter, the day we celebrate as the day our Lord and Saviour rose from the dead! It is this event that makes Christianity unique. It is this event that allows Christians the world over to know that death has no hold over us. Whatever our physical state, whatever our financial state, we are assured of everlasting life because our savior overcame death and Easter is our celebration of this fact.

In this world today the political and financial systems are in turmoil. As we look at the world and its political and moral status we could be dismayed and be totally without hope. Over 50 million babies have been killed in the United States alone through abortion. We have made killing legal. Where is the moral outrage? How did we get to this stage of progressiveness? Yes, all around us we see death and destruction. Yet the leaders of our nation continue on the path to death and destruction.

We are told that when these things come to pass to “lift up your eyes and rejoice as redemption draweth near. Yes Jesus is with us even in these times. He overcame death for us and now is every present to give us comfort and hope. In the darkest time is when His light shines the brightest and gives us peace.

Many in our group have suffered much in the past year. Their strength has been an inspiration to their fellow club members. We thank them for their strength and know that they have the courage to continue from their faith in a living saviour.

May God continue His blessings on each one of us in the coming days.

Otis and Linda Lutz
